Uniforms & Product Destruction

Did You Know?

“Fraud is costing UK businesses around £2bn each year” (Protiviti)

“More than four out of five companies surveyed (85 percent) have suffered from corporate fraud in the past three years”.
(Kroll Global Fraud Report)

As the threat from corporate fraud and aggressive competition continues to rise, so too does the importance of protecting your company's brand and the security of your workplace.

How Can We Help You?

We offer you complete peace of mind with our safe and secure uniform and product shredding destruction service.

Workplace Security - Through safely and securely destroying uniforms, branded clothing and ID badges, we help you to prevent thieves and competitors from accessing confidential files, information, and valuable equipment.

Brand Protection - Whether you need to confidentially destroy product prototypes or prevent recalled, damaged and out of date products from reappearing in the marketplace, we help you to protect your company's brand and integrity.

Dedicated Service Team - Your dedicated Account Manager and driver crew will work with you to deliver the most cost effective solution for your business.

Value for Money - We offer you the highest level of protection and security at the most competitive prices.

Destroyable Items

- Uniforms
- ID Badges
- Branded Clothing and Merchandise
- Product Prototypes
- Recalled Products
- Damaged Products
- Out of Date Products

How It Works

Step 1: Your dedicated, security vetted, ID and uniformed crew will arrive at a pre-arranged date to collect your uniforms and products for destruction. The items collected are recorded on the waste transfer note and a designated member of your staff will be asked to sign the note. They will receive a copy for your records.

Step 2: Your items are safely and securely transported to our central plant where they are destroyed by shredding on the same day.

Step 3: For assurance, you will be issued with a Certificate of Destruction once the destruction process is complete.
