

Russell Richardson & Sons Ltd

Total Office Waste & Recycling Management

Did You Know?

“The energy saved by recycling one plastic bottle will power a computer for 25 minutes”.

“The landfill tax is expected to double to £48 per tonne in 2010”.

As the government applies pressure on companies to become environmentally responsible, and customers look to purchase from eco-friendly businesses, it is becoming increasingly important to minimise the impact your company has on its environment.

How Can We Help You?

We help you to enhance your company's image and meet compliance standards, today and in the future, with our total office waste and recycling management scheme.

Easy & Convenient Recycling – We offer mixed recycling containers to make recycling as easy as possible for your staff, save you valuable space and reduce the risk of decontamination through container misuse.

Flexible Solutions – We can offer you a range of container sizes to suit your company's individual needs and amount of space you have for storage.

Compliance Protection – We ensure your company's compliance with pre-treatment landfill legislation introduced in 2007.

Value for Money – We offer you flexible and reliable waste & recycling solutions at the most competitive prices.

Enhance Company Image – Working with us to minimise your company's environmental impact will communicate a positive message to your employees, customers and suppliers.

Russell Richardson & Sons Ltd

Recyclable Items:

- Cardboard
- Metal Tin/Cans
- Plastic Bottles & Film
- Glass

Specialist services provided:

- Office Furniture
- Toners/Cartridges
- Batteries
- Fluorescent Tubes

How It Works

Step 1: We will collect your office recycling and general waste containers at a pre-arranged date.

Step 2: After pre-treating your waste we will transfer your recyclables to a Materials and Recycling Facility (MRF) to minimise landfill waste and cost.

Step 3: We will issue you with a waste transfer note to prove compliance and your corporate responsibility.
